At New Mexico State University, we value our students and community above all else. As a land-grant institution and research university, our mission is to serve the needs of our state through our comprehensive programs of education, research, extension, outreach, and public service. Our campuses – located in Las Cruces, Doña Ana County, Alamogordo and Grants – allow us to reach a diverse population of individuals seeking higher education options. Additionally, our satellite learning center in Albuquerque, cooperative extension offices located in each of the state’s 33 counties, and 12 agriculture research and science centers provide the community with research-based knowledge and programs that aim to improve the lives of New Mexico citizens.
